Dear Ham:

You asked me to give you the references to the apparent leak at the Council at the time of Bob Amory's talk some weeks ago. I enclose a page from the National Review of April 26, 1958 which was picked up by the Manchester Union Leader and several other papers including the Chattanooga News-Free Press.

I have not discussed with Bob what he in fact said and don't wish to make any issue of this matter or to stir up more publicity. You undoubtedly know the background and characteristics of the National Review and neither what it nor these papers have said have gained any wide publicity.

Accordingly, if you make any investigation of the leak -- if it is a leak -- please have it on a very discreet basis.

Sincerely,

SIGNED

Allen W. Dulles
Director
